Crane, Crapo, Cogswell and Brackett the Bay State Delegates to Minneapolis—An Invitation to Mugwumps—Senator Quay's Name Greeted with Mingled Cheers and Hisses at Minneapolis—Keystone State Republicans Were Out in Force.

HARRISBURG, Pa., April 20.—The Republican State Convention to nominate a candidate for supreme judge, two candidates for congressman at large, four electors at large and eight delegates at large to the National Convention, was called to order by State Chairman Waters at 10.20 o'clock this morning. The Harrisburg Opera House was packed to suffocation, the delegates occupying the first floor and the spectators crowding themselves into the two galleries. All of the 270 delegates responded to their names. The platform adopted expresses adherence to Republican principles and endorses the administration. Mr. Phillips, of Schuylkill, offered the following as an amendment to the platform:

"Resolved, That we congratulate our junior United States Senator upon the spontaneous and unbounded manifestations of approval of his course recently exhibited throughout the Commonwealth, and as representative of the State at large, in this Presidential year, recalling his magnificent services to the party in 1888, cannot refrain from adding our testimony of appreciation and tendering our earnest felicitations to the Hon. M. S. Quay."

Tremendous cheering, mingled with hoots and hisses, followed the reading of the resolution. A dozen delegates were on their feet demanding recognition. After considerable confusion the matter was finally settled by Mr. Phillips temporarily withdrawing his amendment. A conference resulted in the offering by Mr. Phillips of the following:

"The public and party services of Matthew Stanley Quay entitle him to the thanks and gratitude of the Republicans of Pennsylvania."

This was adopted and the convention, after making the nominations, adjourned.

**IN THE BAY STATE.**  
Crane, Crapo, Cogswell and Brackett, the Delegates Chosen.

Boston, Mass., April 21.—The Republican state convention today was a large, harmonious gathering. Its chief purpose was accomplished by the selection of four delegates at large to the national convention, the ballot resulting:

Whole number of votes.....	1129
Necessary for a choice.....	565
W. Murray Crane.....	1097
Wm. Crapo.....	1090
Wm. Cogswell.....	1087
John Q. A. Brackett.....	380
Oliver Ames.....	167
Elmer H. Capen.....	13
Scattering.....	13

Messrs. Crane, Crapo, Cogswell and Brackett were declared chosen.

The following alternates were chosen by acclamation: Michael J. Murray of Fitchburg, Hon. Howes Norris of Cottage City, Butler R. Wilson of Boston, and Hon. H. Torrey Cady of North Adams.

The convention organized with William C. Lovering of Taunton as permanent chairman. In his address, Mr. Lovering, referring to the Massachusetts Independents, said: "Many of you, gentlemen, left under an honest conviction that the party had fallen from its high standard of earlier years, that its mission was over and that the civil service reform would be better promoted by the Democratic party. To you, gentlemen, we extend an invitation to compare carefully and candidly the civil service record of the present administration, with that of the administration just preceding it. We also invite you to consider well the attitude of the two parties upon the silver question. We say to you that a vote for the Republican party means a vote for stability, trustworthiness and the prosperity of all the people. We say to you that a vote for the Democratic party means uncertainty, fluctuation in currency and values, the workman in continual doubt as to what will be his condition, whether he will have employment or not, whether his wages will be continued or not."

The platform adopted by the convention opposes free coinage, reiterates the party's stand for protection and commends the system of commercial treaties which seeks the national expansion of our foreign trade by arrangements having regard to the peculiar laws and products of each nation, rather than by general laws opening our markets to foreign producers without receiving any benefit in return. It condemns the spoils system and urges a more general application of the civil service rules. It demands a free ballot for every voter and an honest count. It congratulates the country that the supreme court has vindicated the restoration of power to the majority in Congress, by the rulings of the Republican Speaker, and favors a national bankruptcy law, laws for the rebuilding of the merchant marine, strengthening of the navy, restriction of undesirable immigration and pensions for needy and deserving veterans. The platform closes with a hearty endorsement of President Harrison's administration.

**Against Maine Mills.**

**Picked a Maine Woman's Pocket.**  
BOSTON, April 20.—J. H. Courtney, who was seen to pick the pocket of Mrs. Abby L. His record is likely to send him to state prison for 25 years under the habitual criminal act.

**KNIGHTS OF RECIPROCITY.**  
James G. Blaine Lodge the First Organized in Maine.

[Special to the Press.]  
ROCKLAND, April 20.—The Republicans of this city took an important step toward the coming campaign, last night. At a hastily-called meeting held in city hall, at which about fifty of the most prominent members of the party were present, organization was perfected under the name of James G. Blaine Lodge, Knights of Reciprocity.

The lodge is a secret political society formed for the purpose of interesting young men in the party. Its platform favors the perpetuity of our Union, just and liberal pensions to all honorably discharged soldiers and sailors of the Republic, the protection of American industries, fair and equitable reciprocity between all nations on the American continent, an intelligent ballot, honestly cast and counted, and the disfranchising of every citizen who offers or accepts a bribe to influence a ballot.

Among what may properly be termed the charter members of the lodge, are the following prominent Republicans: Attorney General C. E. Littlefield, Mayor E. A. Butler, F. W. Wright, R. H. Burnham, H. M. Lord and others. The officers are as follows:

President—J. T. Simonton.  
Vice-President—E. W. Berry.  
Clerk—E. K. Gould.  
Treasurer—R. Campbell.  
Inner Ballin—E. S. Farwell.  
Outer Ballin—John W. Ham.

The lodge was organized by Supreme Lecturer Ellis, of South Dakota, who also made some remarks. The James G. Blaine Lodge is at present the only organization of the kind in Maine, and, upon motion of F. B. Miller, the fact of its formation was telegraphed to the Secretary at Washington.

**EAST MAINE METHODISTS.**  
Dr. Parkhurst, the New York Reformer, Enlarged by the Preacher.

ROCKLAND, April 20.—The East Maine Methodist Conference opened at 5 a. m. today, the sunrise meeting being under the auspices of the Holiness Association, led by Rev. J. R. Clifford, who made a short, interesting talk.

At 8.30 the conference prayer meeting was led by Rev. W. T. Jewell. At the close of this meeting Mr. Jewell introduced a resolution expressing the satisfaction of the conference in having Rev. Dr. Goodsell as the president.

At 9 o'clock Bishop Goodsell took the chair and made a brief, pithy and impressive address, and declared the conference formally opened. The sacrament of the Lord's supper was observed, the Bishop being assisted by presiding elders B. C. Wentworth, J. T. Haley, and H. W. Willet. Routine business followed until noon. The conference sermon was preached by Rev. J. T. Crosby of Ellsworth, from Daniel, 2:20: "Blessed be the name of God, forever and ever, for wisdom and might are His." The theme was "God, the supreme ruler; man, the agent of God." In the course of his remarks, Mr. Crosby enlarged Dr. Parkhurst, the "prophet reformer," and said it was the business of every minister to preach righteousness and the overthrow of iniquity.

At the meeting of the Freedmen's Aid and Southern Education Society, Rev. J. Finley of Guilford presided. Rev. W. J. Kelley read the parable of the prodigal son, and Rev. C. L. Haskell offered prayer. Rev. Charles Parkhurst, editor of Zion's Herald, made an earnest, eloquent and powerful address.

The evening session was devoted entirely to the Methodist Church Extension Society. After preliminary devotional exercises, Rev. W. A. Spencer, D. D., of Philadelphia, corresponding secretary of the society, took the platform and delivered an address of the society. His aim is to assist weak churches at important or promising points in building houses of worship. Dr. Spencer has been secretary of the society for six years, and has travelled in its interest over 12,000 miles a year, and attended, on an average, fifty conferences a year. The East Maine Conference is the 56th this year. The Church Extension Society has built churches at the rate of three a day for the past five years.

**THE CITY GOVERNMENT IS HAPPY IN BRIGHT NEW QUARTERS.**

An Ordinance Reported Organizing a Fire Department—Methods of Caring for the Poor to be Reformed—Other Business Transacted Last Evening—A New Alms House.

The city government of Deering met last evening in the new room that has been fitted up in Lewis Hall for it. The small hall on the first floor has been divided into two rooms, one for the permanent office of the Clerk, Treasurer and Collector Jones; and the other for the meetings of the city council. The council room is a very neat and convenient room, with woodwork finished in oil, seats for spectators without the rail; and within the rail seven oak desks for the aldermen, grouped in a semi-circle about the larger desks of the mayor and clerk. The space within the rail is nicely carpeted, and upon the whole the new city government has very attractive quarters.

The mayor, clerk and all the aldermen but Alderman True were present.

The first business of the evening was the resignation of Dr. C. W. Foster as member of the Board of Health. It was accepted. The appointment of his successor will be over to the next meeting.

The committee on streets, Messrs. Jacobs, Nevins and Leighton reported an order that the Westbrook Electric Light Company be requested to remove and relocate their poles on Brighton street under direction of the street commissioner. This action was taken that the poles may be removed from the right of way of the electric railroad.

A communication was received from the city committee asking the nomination of Fred Y. Matthews as Republican member of the Board of Registration. Accordingly Mayor Merrill appointed Mr. Matthews.

Warren P. Cobb was appointed constable at Allen's Corner.

Petitions were received as follows:

From Gilman G. Lane and about forty others, for a sewer commencing on Forest avenue opposite William street and continuing northerly on Forest avenue to Pleasant street, thence westerly on Pleasant street to Stevens Plain avenue, thence northerly to center of New street, also to build connecting sewers on Saunders, Spring, Mechanic, Lincoln, Pearl and Pleasant streets from the corner of Stevens Plain avenue to Smith street. Referred to committee on sewers.

A. A. Lovell and seventeen others for the extension of Grant street from Prospect street southerly to Mitchell hill through land of Henry Deering. Referred to the committee on streets.

Blackstone and twenty-seven others asking for the establishment of an electric light on Spring street, near Kishia Higgins's, and at intersection of Forest street and Stevens Plain avenue. Referred to committee on lights and water.

Aldermen Nevins presented an order that the Mayor draw an order for the payment of \$364.13 to W. L. Putnam, attorney for the Portland and Rochester railroad, for land damages awarded the company at the April term, 1892, of the Supreme Judicial Court, as follows:

Notes street crossing \$100, and county commissioners' costs \$53.88; Falmouth street \$100 and costs \$10.25; William street \$50; and Fessenden street \$50. Laid over under the rules for second reading at the next meeting.

Upon motion of Alderman Hutchins, an order was passed that the several collectors of taxes of the town of Deering pay forthwith to the city treasurer all tax money in their hands on the first day of each month; such payments to be made in money only; and interest to be charged for all money held in disobedience to this order.

Messrs. Brothers of Woodford, and George M. Cram of Morrills, were appointed weighers of coal, hay and straw.

**The Fire Department.**  
Alderman Hutchins reported an ordinance constituting the fire department. It provides for a chief engineer and not more than seven assistant engineers, to be chosen annually by the city government, and of as many engine men and hose men as the apparatus of the city shall require. The engine men and other subordinate members of the department are to be appointed by the mayor and aldermen on nomination of the chief engineer, and shall be removable by the chief engineer with the consent and advice of the city council. There are to be hose men for seven hose companies, not exceeding 15 men each, who shall drill once a month from April to November.

The chief and assistant engineers are to organize themselves into a board of engineers to have general supervision of the department. The order was read once and laid over under the rules for a second reading.

Alderman Jacobs presented an order constituting a committee of three to be called a committee on accounts, who shall have a clerk, who shall be the city clerk, and keep general supervision of the financial affairs of the city. The order had its first reading and was laid over.

**Streets.**  
Mayor Merrill made a short speech on better roads that would do the heart of every wheelman good, and then introduced an order, which was passed, directing the street commissioner to procure a screen and screen the large stones out of the gravel which is to be put on the roads.

**The Poor.**  
Overseer of the Poor Bell appeared in regard to the management of the affairs of the poor. He said that in the past the management of the outside poor had often been extravagant. Some of the poor, as the bills showed, at the town's expense, had been enjoying steaks at 28 cents a pound, eggs at 32 cents, canned berries and other luxuries. He thought there should be some improved means of supervising the help for the poor. Alderman Nevins agreed that there should be a change. He said he knew of cases where families assisted by the town had carte blanche provision stores; and were very extravagant. Norfolk oysters were

not good enough for them, and they demanded Providence Rivers. They also demanded the finest cuts of beef, and would take no other. Mr. Nevins thought that a poorhouse was needed, and took the opportunity to make a report from the city government committee on new almshouse, recommending the construction of one.

Alderman Jacobs thought the poor might have an order on the stores for a limited amount each week, until an almshouse could be built and better methods devised.

Alderman Hutchins moved that informal advice be given to the overseers (who are really virtually independent of the aldermen) to allow limited credit at the stores to poor families.

It was voted that the almshouse committee be continued with instructions to provide plans and estimates for a new almshouse.

**CITY BONDS.**  
The question of issuing city bonds coming up, Alderman Nevins presented several samples of bonds, with costs of engraving, etc.

BOWDOINHAM, April 20.—The unoccupied house of Mrs. Herbert Martiner burned yesterday, a brush fire being the cause.

ATHENS, April 20.—Philander Hoyt's buildings burned yesterday, with three horses, three cows, and 28 sheep. Loss \$1000.

**FRENCH THREATENED.**  
The King of Dahomey May Order His Amazons to March.

PARIS, April 20.—An official despatch from Porto Novo states that King Behanzin of Dahomey, has written a letter to the governor of Porto Novo, in which he declares that he is quite prepared for any move France may make against him, and warns the French that if they touch any of his towns he will destroy Porto Novo and all the French posts in the Bight of Benin. The despatch adds that if King Behanzin should decide to take the initiative in the opening of a war, there is no question but that the safety of the French possessions would be seriously threatened.

**The Bath Firebrigs.**  
BATH, April 20.—Heald, the young man who confessed yesterday to setting fire to the Harvard barn, has sworn against one of his associates, a notorious character by the name of Jack McDonald. Heald has partially revealed connection with other incendiary fires. McDonald was examined and placed under \$5,000 bonds this morning and will be taken to jail at once as he cannot get bail.

**Augusta People Bitten.**  
AUGUSTA, April 20.—The attorneys of the American Trust Company, of New York, the investment concern which recently went to pieces, have received word from a member of the stockholders' committee appointed to investigate the affairs of the company, that nothing remains but a quantity of worthless stock and therefore no dividends can be declared. This means that Kennebec Valley people who invested in this company are out of pocket some \$10,000.

**Hotel Belmont Sold.**

**Little Lutie and the Gun.**  
TURNER, April 20.—Yesterday Lutie, the young son of W. B. Bradford, came across an old gun. He attempted to take the wooden plug from the muzzle but it resisted his effort. So he put the gun in the stove, in order to burn out the plug. Then Lutie went out to doors. A moment later, the stove, the broken furniture and the window frames followed him. Little Lutie was not hurt. It seems that each of his two big brothers had once loaded the old gun and found it missed fire. Lutie set off both charges.

**The Case of L. L. Hill.**  
SACO, April 20.—City Marshal Seavey went to Boston today in search of more evidence against L. L. Hill, the Boston meat dealer who is under arrest here charged with attempting to poison his wife. Mrs. Hill is still in a critical conditional and it is believed she will be unable to attend the hearing Saturday.

**YESTERDAY'S NEWS AT THE NATIONAL CAPITAL.**

The Czar of All the Russias Sends His Thanks to Generous Yankees—Perfecting Arrangements to Guard Behring Sea—Anti-Silver Men Gain a Point in the House—Mr. Teller Makes a Threat in the Senate.

WASHINGTON, April 20.—By a vote of five to three, the House fisheries committee decided to report favorably the Lapham bill authorizing fishing for menhaden and mackerel with purse seines in all United States tidal waters, regardless of state laws and customs. There has been a struggle over this bill and the committee has heard long arguments from steam fishermen who assert that the state laws have crippled a valuable industry, and from the shore fishermen who insist that their fisheries are ruined by the operation of purse nets.

**ANTI-SILVER MEN RALLY.**  
They Gain a Point in the House—Senator Teller's Speech.

WASHINGTON, April 20.—It appears the anti-silver men will make an effort to recover the ground which the silver men assert they lost yesterday through the vote in the Senate upon the Kyle amendment to the Arizona funding bill, for when the bill was laid before the House today, Delegate Smith moved to non-concur in the Senate amendments, the principal one being the "lawful money" amendment, and asked for a conference, and his motion was carried.

In the Senate today Mr. Teller, speaking on Mr. Morgan's silver resolution, declared that if the Republican party stood for a gold standard, the representatives of the silver states could not long act with them on that or other questions.

**TO ENFORCE THE AGREEMENT.**  
Orders to Commanders in Behring Sea Agreed Upon.

WASHINGTON, April 20.—Gen. J. W. Foster of the State Department Acting Secretary Spaulding of the Treasury Department and Acting Secretary Soley of the Navy Department, had a conference today in regard to the enforcement of the Behring sea modus vivendi. The general character of the instructions to commanders of naval and revenue vessels assigned to duty in Behring sea was agreed upon and the instructions will be prepared and forwarded at once. The President will issue a proclamation in a few days promulgating the modus vivendi, and warning all citizens of the United States against its violation. It has been settled that the ratifications of the treaty of arbitration shall be exchanged at Washington and the Secretary of State and the British minister are now making arrangements for that formality.

**THE CZAR'S ACKNOWLEDGEMENT.**  
The Autocrat of All the Russias Thanks the Yankees.

WASHINGTON, April 21.—The Secretary of State has received a despatch from Minister Smith at St. Petersburg, recounting a conversation between the Emperor and himself, in which His Majesty said: "I am very much touched by the interest and kindness which the people of the United States are showing in sending ships of flour to my suffering people. Those offerings are great and generous and they indicate sympathy and friendship for which we are deeply grateful, and I desire that you will convey to the American people my sincere thanks for this manifestation of their friendly and humane sentiments."

**The Road Gets the Streets.**  
CAMDEN, April 20.—A special town meeting today voted in favor of granting the use of the streets to the Rockland & Camden electric railroad.

**The Boston & Maine's Elevator.**  
BOSTON, April 20.—The Boston & Maine directors today voted to build a 1,500,000 bushels grain elevator on Mystic wharf, Boston.

A close friend of Senator Gorman says that the latter is physically unable to stand the labor and strain that would be put upon him in a presidential campaign, and so he has concluded to withdraw from the Democratic national committee when the national convention meets, and to decline a re-appointment.

## THE MONEY IS UP.

Last Step Taken in Organizing the New England League.

Boston, April 20.—The executive meeting of the New England Base Ball League was held at the Quincy house to-night. Manchester was represented by T. P. Lovell, Portland by C. K. Gage, Lewiston by W. B. Skelton, Lowell by W. H. Lincoln, Salem by J. H. Benton, Woonsocket by C. H. Greenleaf, Pawtucket by W. H. Rowe and Brockton by W. H. Allen. Brockton was admitted to membership. Every club paid its \$300 guarantee. Haverhill was not admitted, John Irwin stating that it was best not to undertake to run a club there on account of conflicting interests. The constitution was read, adopted and ordered printed. It was voted unanimously to seek protection under the national agreement. The umpires for the league will be W. D. Mulcahy of Waltham, Dan Connelly of Waltham, L. J. Rollins and P. J. Keeler. The schedule committee will commence work tomorrow morning. The season opens May 4. The meeting adjourned to next Wednesday evening at the Quincy house.

## THE NATIONAL LEAGUE.

New York Given a Victory by Forfeit in the Game With Baltimore.

Yesterday's National League games at Washington, Louisville and Cincinnati were postponed on account of rain. New York yesterday received the credit of a victory by forfeit, the Baltimore team leaving in a hurry and the game being given to the Gothamites by a score of 9 to 0. The scores:

AT PHILADELPHIA.  
Boston.....0 0 5 0 1 0 0 3-6  
Philadelphia...0 1 0 0 0 1 1 0-3  
Base hits—Philadelphia, 6; Boston, 2.  
Errors—Philadelphia, 0; Boston, 2.  
Batters—Staley and Gangel, Corsey and Clements.

AT BALTIMORE.  
Baltimore.....0 0 2 0 3 0 1-8  
New York.....0 0 0 0 1 4 3-6  
Base hits—Baltimore, 6; New York, 8.  
Errors—Baltimore, 2; New York, 6.  
Batters—Cobb and Robinson; King and Boyle.

The game was awarded to New York, nine to nothing, because Baltimore refused to play the last half of the sixth inning, being obliged to take a train for Boston. Captain Ewing of the New Yorks claimed he was not notified of Baltimore's desire to catch a train.

## Sporting Notes.

Anson, the great Chicago player, was 40 years old Sunday, and has played ball since 1865.

Fergus and Madden, two New England pitchers, were pitted against each other in the opening game in Indianapolis, Milwaukee being the visiting club.

Fred Plaisted was in Boston the other day. He thought the New England Amateur Bowling Association quite likely to come to Portland to hold its regatta this year

Gorham.

**NORTH GORHAM.**  
North Gorham is receiving an unprec. edented boom this spring. The Indurated Fibre Co. is building an addition to the treating-house which, when completed, will be sufficiently large for twice the work formerly done. Six houses are to be built at once, which are much needed by many of those who work in the mills. We are informed that the mills are running at their fullest capacity and are making more ware than ever before, and yet cannot fill their orders.

Wyman Manchester is building a large and attractive addition to his house, and from which he will build an elf fifty feet in length to the stable; he is also bringing water to his house from a spring about fifty rods distant.

The very tasty manner in which Old Trickey has had his buildings remodeled and painted is a noticeable improvement. Miss Jennie Carver will teach the summer school at West Poland, Miss Ella Moses at Casco Village, and Addie Moses at Wilham.

George H. Moses has just returned from Sonogo, where he took a party of gentlemen to fish for salmon. The trip was a success. Many salmon are being caught there this spring. Mr. Moses has a nicely equipped yacht, and will make it a business to take hunting and fishing parties during the season to Sonogo, Raymond Cape and other favorite hunting and fishing places on and near the beautiful Sebago Lake.

Willis Chaplin, the new blacksmith, is receiving a large patronage; he makes quite a specialty of shoeing trotting and driving horses.

We should like to say something in favor of the building over the fountain, which afforded most of the water of the village.

The track at Windham Hill is being put in condition for the races which are to occur there in June.

Cumberland.

Bridgton.

The Selectmen met Monday afternoon according to notice and laid out a road from the town way near the railroad station, southerly by the land of the railroad company to the lot which is being graded for the condensed milk factory. The distance is some thirty rods and it is almost wholly on land of J. L. Wales.

A fine large stable and carriage house has been built by Lisbie Sanborn, on land recently bought by him from the Portland road.

The water in Long Lake has risen about one inch a day for the last two weeks, but is now so low that the boatmen say it is impossible to get a boat through the low bar at the mouth of the lake. The water at the mouth of that river is said to be less than a foot deep.

The Bridgton & Saco River R. R. have recently added a fine new locomotive to their rolling stock, which was placed on the rails for the first time Saturday. The new machine was built by the Portland Company, and is several tons heavier than either of the old ones, the increased size and weight being needed by the increasing business of the company.

Fryeburg.

Easter was celebrated as usual, by the two churches in this village. Appropriate sermons were delivered in the morning by the pastors. Music adapted to this great festival day was rendered by the choirs. The floral decorations in honor of the occasion were fine. Those at the Congregational church consisted of foliage plants, arbution, geraniums and other plants in bloom. They were arranged in the form of a bank, at the left side of the pulpit entrance, while on

the right side, were placed a cross of crocuses and a smaller bank of plants. The decorations at the New Jerusalem church were said to have been the finest Easter display ever made by that society. They consisted of cut hot-house flowers and potted plants and were thus arranged; a large cross of tea-roses and moss rose from a mound of green at the repository. A spray of Easter lilies, with sunlax, intertwined resting on a small standard draped with white, decorated the left side of the desk, while a bouquet of roses graced the right side of the desk itself. On the communion table was a large bouquet of calla blossoms; in front of these was a small hedge of eucalyptus in bloom and foliage plants. At the right of the organ was a small bank of green foliage plants. The alcove at the right of the pulpit was filled with a pyramid tastefully formed of green foliage plants and bright blossoms. Bouquets of New England's shy sweet favorite, the Mayflower, were seen in the windows. Special Easter services for the children were held in the evening at both churches. At the close of the concert in the New Jerusalem church the pastor, Rev. B. N. Stone, exhibited some of the Hoffman pictures. Those illustrating the latter part of the life of Christ were given. The holy supper was celebrated in the afternoon at the New Jerusalem church.

Mr. Ephraim Dyer got his hand hurt very badly last week. He was leading one of his horses out to water, when the horse jumped suddenly, and a hook in the end of the halter caught in the palm of his hand, lacerating it badly. Dr. S. B. Thoms was called to dress the wound.

Mr. John Dearborn and family have moved to Pond Cove, Mrs. Dearborn's former home.

Last Sunday night a carriage containing six drunken men driving on the Shore road stopped at Milton Dyer's and stole two of his hens. If the stable keepers who let their horses to such men could see how they were driven and treated they would be more careful in the future.

Pownal.

Easter was very appropriately observed at the Congregational church here. The church was simply, yet very tastefully decorated with evergreen, cut flowers and potted plants. Rev. Mr. Brown reviewed with much pathos and power "The Easter Story" and the music was a pleasing feature of the occasion. By the special request of the pastor a cordial invitation is extended to any to whom it may be convenient to attend any time the meetings which are held at 2.30 (standard time.)

Although the snow disappeared very early the spring thus far proves to be cold and backward, and farmers have as yet put very little seed into the ground. A few have planted potatoes but they most lie cold the frosty nights.

It is extremely dry for April, and the ponds and streams are unusually low. The meadows have prevailed quite extensively of late and in some cases in a severe form, though none have proved fatal. The disease is now abating.

And the horse that takes the eye of the horsemen is Keystone—private record of 2.20. He is just a beauty.

**MINERAL SPRING WATERS.**

We are making a specialty of Mineral Waters of all kinds. Artificial and natural, foreign and domestic, forty one kinds in all at our Millett Store. Just now Lithia Waters are attracting special attention and being generally prescribed by physicians, for rheumatism, dyspepsia, diseases of the kidneys, etc. A word in regard to these Waters may not be amiss. The salts of lithia were prominently brought under the notice of the medical profession about 30 years ago by Dr. Garrod, who recommended them in cases of uric acid diathesis, connected with gravel and also in chronic gout and rheumatism. This recommendation was based upon the fact that Lithia possesses great affinity for uric acid, rendering it soluble, and hence when mixed with urate of soda, it decomposes the latter and unites with the uric acid, forming a soluble urate of lithia and leaves the soda free. Lithia Waters are these salts plus the finest spring waters, with which they are combined, sometimes naturally and sometimes artificially. The presence of the salt, never more than twelve grains per gallon, is entirely imperceptible to the taste and does not detract from the quality of the waters for table use. A medicine and a fine table water combined. We submit a list of the most prominent, together with prices.

THURSDAY, APRIL 21.

Our esteemed contemporary, the Argus, seems to have suddenly lost all interest in the sugar tariff.

How much Judge Maynard's vindication by the New York legislature is worth can be judged better this fall when he will come before the Democratic convention for nomination.

The latest is that Cleveland will not accept the Presidential nomination unless if he can be sure of carrying New York State. If this is true then it is certain that Cleveland will not be a candidate, for New York has always been a doubtful state and will be this fall. Such a guarantee as Cleveland asks it is impossible to give.

It looks as though the people of Louisiana had made assurance doubly sure that the lottery company should not continue business by electing to the governorship a man pledged against the renewal of the company's charter. The contest has been an exceedingly bitter one, and it will probably leave behind the seeds of enmities which will bear fruit in the Presidential campaign. Were the Republicans united these enmities might be turned to their advantage, but the Republicans appear to be as badly split up as the Democrats.

It is not at all likely that the Mugwumps will accept the invitation of the Republicans of Massachusetts to return to the Republican party. The Mugwumps long ago became Democrats, and they are likely to continue so to be. Possibly the nomination of David B. Hill and the adoption of a free coinage plank by the Democratic National Convention might be too much for their stomachs, but even under these circumstances we doubt if they would return to the Republican party. It is a great mistake to suppose that the Mugwumps are independent, inclined to follow their judgment of what is best. That is a role in which they long ago ceased to appear. Their hatred for the Republican party is now more bitter and irreconcilable than that of the old line Democrats. All invitations to return to the Republican party extended to them are wasted.

The joint appeal of Chairman Manley of the Republican State Committee and Chairman Donovan of the Democratic State Committee to the officials upon whom the Australian law imposes the duty of appointing the ballot clerks to select for those positions men recommended by their respective parties is timely, and it is to be hoped that it will be heeded. The Australian ballot law is perfectly fair theoretically to both parties, and it will be perfectly fair in practice to both parties if the officials whose duty it is to administer it are animated by the right spirit. It can be readily seen however if a Republican mayor should select as ballot clerks to represent the Democrats men not acceptable to that party, or a Democratic mayor should act the same way in regard to ballot clerks to represent the Republicans dissatisfaction would be created, and the law somewhat discredited. Let the law be enforced according to its spirit and letter and all will be well.

CANADA AND RECIPROCITY.  
It is all very easy to talk about reciprocity with Canada, to say that it would benefit Portland, and as it undoubtedly would, and that we ought to have it, but it is altogether more difficult to get it. Of course we can get from Canada the privilege of sending our natural products such as farm produce, into the Canadian markets, in exchange for the like privilege granted to Canada of sending her natural products into our markets. But that is not reciprocity. That is exposing our farmers to a hurtful competition without any adequate recompense. The present government of Canada is not in favor of any real reciprocity. It has, to be sure, for the purpose of quieting the sentiment in

favor of it among the people, made a pretense in that direction, but at heart it is against any arrangement with this country unless it be one in which all the advantages are with Canada. Its recent negotiations at Washington were a sham, undertaken with no idea that they would be successful, but simply to enable it to say to the Canadian people that it had offered to make an arrangement with the United States and met with rebuff. It is useless to expect any closer trade relations between the two countries until the Canadian Tories are overthrown and the Liberals take their places. Even then it is by no means certain that reciprocity can be secured. The Dominion is not an independent nation, and it cannot make treaties with the United States or any other nation without the assent of England. Any arrangement which Canada may make with us must receive the sanction of the mother country. Now while England has dealt pretty liberally with Canada and allowed her to manage her local affairs without interference, it is pretty certain that she would interfere if Canada should undertake to discriminate in her trade policy against her and in favor of the United States. But a real reciprocity between Canada and the United States involves such discrimination, unless our policy of protecting American industries is abandoned. Were not such discrimination made the opening of our markets free to Canada would be tantamount to opening our markets free to Great Britain. Canada must adopt the same tariff against British goods that we adopt before there can be close trade relations between the two countries, unless, as we before observed, we are to abandon our protective tariff. We doubt if Canada herself is quite ready to do this at present; and we doubt very much if Great Britain would permit her to do it if she was.

STATE ITEMS OF INTEREST.

A St. Francis gentleman says that George Nadeau, who shot U. S. deputy sheriff McNally, near that place some weeks since, declares he will never be taken alive. Nadeau goes about armed with a rifle and a brace of revolvers, but no one is afraid of him. It is known that he will never use the weapons unless an injury is made to arrest him. He says he will keep one shot to end his own life if the authorities come after him in sufficient numbers to overpower him.

Bar Harbor cottages are in good demand this year and many applications are being received from the tourists.

The law court in the case of State of Maine vs. Peter Newell, an indictment for killing deer in close time has just decided that the claim of the Passamaquoddy Indians to the right to kill deer at any season by virtue of an ancient treaty is unfounded. The court says: 1. The Indians, resident within this state are not "Indian Tribes" within the treaty making powers of the Federal government.

2. Nor are they in political life or territory, the successors of any of the various tribes of Indians with whom treaties were made by the crown or the colonies in colonial times, and hence they cannot effectually claim any privileges or exemptions under such treaties.

3. While they have a partial organization for tenure of property and local matters, they have no separate political organization, and are not subject as individuals to all the laws of the state.  
Gorham P. Fassett, was among the first to enlist and enter the service of his country in the late war of the rebellion from the town of Abbot. He was then prisoner in the latter part of the war and was never afterwards heard from by his friends until within the past year and circumstances connected with the information which has just been acquired are very remarkable and stirring. One of his younger brothers, Alton P. Fassett, who was also a soldier and for a number of years after the war engaged in the blacksmith business at Dexter, went to the Western country a long time ago and for a number of years past has been settled in the state of Washington. He became acquainted there with a man from the South, and a short time ago a book was sent to this Southerner containing information connected with the war and in that book there was a list of prisoners who died at Danville, Va. Among the names which appeared was that of Gorham P. Fassett, and the record on the iron marker at his grave, the number of which is 347, shows that he belonged to Company F of the 1st D. C. cavalry, and that he died March 3d 1865.

The Board of Trustees of the Insane Hospital have organized with Hon. Frederick Robie chairman and Hon. Lyndon Oak, secretary.

Chairman Manley of the Republican State committee and Donovan of the Democratic, have issued a joint circular directing the attention of municipal officers of cities and towns to section 21, chapter 102, of the public laws of 1879, entitled "The Australian ballot law," regarding the appointment of election and ballot clerks for the several cities, towns and plantations. They respectfully suggest that in making appointments under this section municipal officers shall appoint such fair and honorable men as shall be proposed in writing by the Republican and Democratic citizens of town and plantation committees.

CURRENT COMMENT.

EX-SPEAKER REED IN BOSTON.

But it fell to the lot of ex-Speaker Reed, the last speaker, to receive the greatest ovation. It was several seconds before he could start in on his remarks, the cheers and yells were so deafening. Everybody rose and yelled. The round, beaming countenance of the jolly Maine statesman was wreathed in smiles, and when he did commence the smile was transferred to everybody in the audience, and burst forth into peals of laughter. His whole speech was punctuated at frequent intervals with roars of laughter, particularly at his sarcastic allusions to the Democracy, spoken with that nasal twang characteristic of himself. Some of his sentences were masterpieces of rhetoric, and as such were appreciated, but he relied mainly on his wit and sarcasm.

Ex-Speaker Reed was the star of the evening and when he arose to make his brief informal speech, the ovation that greeted him was something tremendous

and when it arose from the floor and stage and ascended to the balconies, it was echoed back again and again until it seemed as if the demonstration would not stop to let "the Republican czar whose fallings have been upheld by the United States Supreme Court"—as he was characterized by the chairman—proceed. And nearly every sentence that he uttered was punctuated with alternate laughter and cheers.

# STATE OF MAINE.

**By the Governor:**  
**Proclamation.**  
 Among the duties that devolve upon us as a people is the perpetuation of those religious observances which have descended to us from our fathers. In accordance with a long established and venerated custom, which has been tenderly cherished by Christian people, I do hereby, with the advice of the Executive Council, designate and set apart  
 Thursday, the Twenty-First Day of April  
 Instant, as a Day of  
**Fasting and Prayer.**

Upon that day I recommend to the people of Maine that they abstain from their usual vocations and unite in divine worship. With grateful and penitent hearts let us praise God for his manifold mercies and implore his forgiveness for our transgressions.

Given at the Council Chamber at Augusta this 15th day of April in the year of our Lord one thousand eight hundred and ninety-two and of the Independence of the United States of America, the one hundred and sixteenth.

EDWIN C. BURLEIGH.  
 By the Governor:  
 NICHOLAS FESSENDEN, Secretary of State.

## FIRE AT ALLEN'S CORNER.

A Small Boy Acknowledges He Was the Incendiary.

A large barn near Allen's Corner, Deering, owned by the estate of J. O. White was destroyed by fire yesterday afternoon about 4 o'clock. The barn contained a quantity of hay and straw and agricultural tools to the value of about \$500. The contents of the barn belonged to Simeon Tracey and were not insured.

A small boy aged eleven years, who gives the name of Joseph Ivy and says he came from Malden, Mass., was brought into the station last evening and acknowledged that he was the incendiary. He came from Malden the other day, arriving here on the boat from Boston. He says he went out to Barrett's in Deering because he had an aunt who had visited there, and got a chance to do chores at Mr. Barrett's house. He acknowledged that he broke some windows in the school house near by the other day. Yesterday he got some matches at Mr. Barrett's and set the barn on fire. He is a colored boy and says his father is sexton of a church in Malden.

Last night there was the light of apparently extensive wood fires in Deering.

## WILL HE DO IT?

What the Young Democrats Request of Treasurer Walker.

It is well known that the young Democrats before the city officers were elected were very firm on one point; the turning out of all Republican office-holders and replacing them with Democrats. Treasurer Walker declined to remove the Republican clerks in his department, and it is reported that the Young Men's Democratic Club have sent him a letter making a demand on him to remove the Republican clerks and replace them with Democrats. It remains to be seen what he will do.

## An Oversupply of Bark.

There are about 1500 cords of bark stacked at the yard of the Casco Tanning Company on Green street. It is worth about \$12,000. The two huge piles, similar in shape and nearly as large as a barn, that can be seen from the street, are worth nearly \$800 each. This year there is an oversupply of bark in New England. It costs \$2 less a cord than last year, and not for twenty years has there been so much stacked in New Hampshire waiting for a market. Four years ago it was difficult for the Casco Company to procure 500 cords of bark, except from the largest dealers; now 1000 cords could be obtained within a radius of 60 miles from this city. The oversupply of bark is due largely to the fact that the trade in leather has been very dull the past few years and the bark has been left over from year to year and accumulating.

## Baptist Main Union.

At the Western Maine Baptist Social Union, which holds its next meeting at the Preble house, Portland, on Wednesday evening, April 27, there will be an address by Rev. Philip S. Moxom, pastor of the First Baptist church, Boston. The supper will be served at 7 o'clock.

## First Baptist Sunday School.

The annual meeting of the First Baptist Sunday School Society will be held in the vestry this evening at 7 o'clock, followed by a social hour, which will be made of special interest by the teachers. Parents of scholars and members of the parish are cordially invited.

## Gospel Mission.

On account of the union service to be held at State street church the 10.30 a. m. service will not be held at the Mission. The Fast day entertainment, announced for 3 o'clock will be held at 7.45 p. m.

## Post Office.

The cashier's and general delivery windows will be open between the hours of 8 and 9 a. m. and 1 and 2 p. m. today. Delivery by carriers will be made at 7 a. m.; collections at 7 and 11 a. m. and 6 p. m.

# MUSIC AND DRAMA.

## The Mikado.

Gilbert & Sullivan's "Mikado" has been produced several times in Portland by some of the best opera companies in the profession, but in certain respects it never had a better representation than that of last evening at the hands of the amateurs; and never has any opera been received here with so much evident enjoyment, and so many marks of approbation on the part of an audience. It was a very brilliant, and critical audience as well, and if it did not occupy every seat in the house, it was sufficiently large to show the great interest taken in the performance by the public.

As soon as Mr. Will Stockbridge took his seat as conductor and raised his baton for Grimmer's orchestra to begin the overture, he was greeted with a storm of applause, and when the curtain rose, the pretty staging of the court yard scene in Ko Ko's residence, with its numerous lanterns of all kinds of odd shapes and devices, its rich drapery, and its view of grand old Fujiyama in the distance seen from the terrace, brought forth another. The singing throughout was of a high order of excellence, not only on the part of the soloists, but especially the choruses. There was perfect attention to shading. The result gave not only a great volume of tone of admirable quality, but a coloring that is rarely seen in professional operatic choruses. This was especially notable in the finale to the first act and the advent of the Mikado in the second, but there was no one chorus slighted in any particular.

Miss Katherine Ricker's Katisha was a remarkable performance. Her first entrance was extremely effective for its dramatic dignity. This dignity was never lost sight of throughout the evening, and to it was joined that beautiful contralto voice that never seemed so full and rich as on last evening. Her solo in the second act was deservedly encored.

Miss Knight, as Yum-Yum, was in fine voice, and her moon song in the second act was so charmingly rendered, so simply and gracefully, that it had to be repeated. Mrs. Morrison's fine contralto did ample justice to Pitti-Sing, and Miss Anne Stockbridge was exceedingly good as Peep-Boo.

Of the gentlemen, Mr. Elliott C. Mitchell as Ko-Ko, was the life of the evening. If he had been built of India-rubber he could not have been more elastic than in his dance in "The Flowers that Bloom in the Spring." His topical song in the first act was full of good things, which we shall not repeat here, as we do not wish to spoil the pleasure of future audiences. The political, prohibitory and fashion hits were excellent. He sang his house well, and especially his tom-tom, which was encored.

Dr. Nickerson's sweet tenor was particularly grateful, and he sang "A Wandering Minstrel" with much expression. Mr. Pierce was a stately and impressive "Boob-Buh," and Mr. Harry Merrill an excellent "Fish-Tush," and their fine voices were heard with delight. The "Three Little Maids" had to repeat their opening song, the Madrigal quartette was splendidly sung, the "Here's a pretty dress" was twice re-demanded, and if the audience had had its way, we believe the performers would have been singing now. As it was, it was after 11 o'clock when the curtain fell. This was the full cast:

Mikado of Japan..... Mr. J. A. Montgomery.  
 Ko-Ko..... Dr. H. M. Nickerson.  
 Pitti-Sing..... Mr. Elliott C. Mitchell.  
 Yum-Yum..... Mr. Frank H. Pierce.  
 Fish-Tush..... Mr. Harry F. Merrill.  
 Katisha..... Miss Florence Knight.  
 Peep-Boo..... Miss Annie Stockbridge.  
 These ladies and gentlemen formed the chorus:

Mrs. Ernest True, Misses Emma Merrill, Lucie Fennell, Julia Long, Ella Morgan, Ida Taylor, Hettie Johnson, Rose M. Sayward, Helen Langthorne, Lizzie Hovey, May Thompson, Annie Lundy, Ada Beardsworth, Henrietta D. Lee, Marian Champlin, Minnie Plummer, Alice Morrison, Myra Williams, Ruth C. Long, Alice Mulbrook, Martha Hawkes.  
 Messrs. H. W. Bernard, Frank L. Gray, W. Henry Shurtleff, D. A. Taylor, Ernest True, John O. Burke, Erving S. E. McEllen, W. F. Stevens, Paul J. Lidback, Charles E. Baker, H. G. Parkman, Fred Dow, C. T. Varney, C. J. Whipple, Chas. E. Noyes, S. T. Evieth, Jr., H. Webber, F. W. McDowell, Marshall Leighton, Arthur R. Hunt, George Cooper.

## Sam'l of Posen.

Mr. Frank Curtis as Sam'l of Posen at Portland Theatre last evening, was one of the strongest offerings of the season. Mr. Curtis, in the palmy days of the Portland theatre, was one of, if not the strongest favorites here, and the reception given him last evening must have shown to him that he was not forgotten. Of the play, nothing but praise can be said of the star part. Very seldom, if ever, has a better piece of character acting been done here. The support is of a better selection than is usually found among combinations of the present time. Mr. Curtis and his company appear twice today, matinee and evening, and they are sure of large audiences.

## Lost in New York.

The scenic spectacle "Lost in New York," will be given a fine production at Portland Theatre tomorrow evening and Saturday matinee, with the original New York company, including Louise Galloway, Adelaide Cotton, Henrietta Scott, Annie Eager, Baby Lillian Spencer, Gus Pixley, John Archer, W. F. Canfield, E. A. June, Harry C. Todd, Wm. Ballert and Charles Fish. Gus Pixley is a brother of the well-known star Annie Pixley, and said to be the funniest "tramp" on the stage. The play is from the pen of the well known American dramatist Leonard Grover, who wrote "Our Boarding House" for Robson and Crane.

A vast river of real water, 60 feet long, 40 feet wide and 4 feet deep, said to contain 60,000 gallons of water, upon which floats real yachts, row boats and a steamboat that carries 20 passengers, is one of the salient features of the production.

The special scenery includes the East river by moonlight, Gramercy Square, showing the house of the late Samuel J. Tilden, Randall's Island insane asylum, and New York at night, with the city illuminated in the distance.

## Ninth Stockbridge.

Probably as delightful an entertainment as we shall have this season will be the joint appearance of F. Hopkinson Smith and Nelson Page—the former the author of "Col. Carter of Cartersville," and the latter of "Mars' Chan"—at City Hall in the Stockbridge course, next Saturday evening. Wherever these gentlemen have appeared they have won unstinted praises. Get seats at Stockbridge's.

## Notes.

The tickets for the grand entertainment to be given by the Elks in City Hall next month were issued yesterday and may be had from members of the order.

## ON A STRIKE.

The Quarrymen at Redstone Are All Out.

The quarrymen at Redstone, North Conway, are on a strike owing to differences in regard to the contract under which they are employed. The strikers each receive a dollar a day from the national union. If the strike is not settled before Monday there will be a general strike of quarrymen over the country.

## Sunday School Convention.

The Friends' Society of Oak street held a most interesting and successful Sabbath school convention during Tuesday and Wednesday. The opening address of welcome was delivered at 2.30 o'clock Tuesday afternoon by Mr. Harry Wood of South Portland and responded to by Mr. Frank E. Jones of South China, Me. Addresses by many talented speakers, including Mrs. Harriet Dalton Collins of Rhode Island, Miss Elizabeth T. Larkin of Peabody, Mass., George L. Crossman of Saco, David J. Douglas of Hallowell and many others were features of the convention.

Mr. H. W. Shaylor gave a pleasing and instructive lecture on the subject of "Palestine" Tuesday evening. The scenes which lay in and about Ramallah were of especial interest to the audience, as the Mission Home there is supported by the Friends' N. E. Yearly Meeting of which Oak street is a branch.

An appropriate solo was rendered by Mr. Harry Harmon.

On Wednesday the exercises consisted of addresses and discussions, the convention closing with a grand gospel temperance service in the evening.

## Cumberland Rowing Association.

At City Hall Wednesday evening, April 27th, the Cumberland Rowing Association will give their friends a hearty welcome. The occasion will be the annual concert and ball. The committee having the matter in charge will do all that is possible to bring it up to the usual standard of success attained by this organization and will endeavor to increase their roll of friends by adding many new ones.

## In Memoriam.

At a meeting of the Portland Society of the New Jerusalem held Tuesday evening, the following resolutions were made and accepted:

Resolved, That in the death of Mr. Luther Farrar Pingree, the Portland Society has lost a valued member, who has done great service to the society and the church in general throughout the state, and that we express our sympathy to his family.  
 Resolved, That we, as members of the Portland Society of the New Jerusalem heart with sorrow of the death of Mrs. Sarah W. Berry, and tender our sympathy to her husband and family in this, their great affliction.

# DISTRESSING EVENT.

And Yet There Are Many Similar.

What is it?  
 Simply that a popular young lady fell to the floor at a social gathering.

Nervous exhaustion, weak and overstrained nerves.

Most women lack both nerves and physical strength, and as a result are extremely nervous, feel weak and languid, wake mornings as tired as they go to bed, lack ambition and energy, have strange, faint feelings and trembling sensations, cry easily, and at trifles, lose interest in company and friends—in fact, feel depressed, dragged out, and utterly miserable. Often the head feels badly, sometimes there is back-ache, female weakness, irregularities, leucorrhoea, &c. All these symptoms are greatly increased during the spring, and should be attended to immediately.

The Grip also, which so many have had, has left thousands in a weakened, nervous and debilitated condition, with perhaps stomach, kidney and liver difficulties, constipation, &c.

If you suffer from any of these complaints, suffer no longer. Go to your druggists and procure for \$1 a bottle of Dr. Greene's Nervura, the greatest of all herbs, and vital restoratives, the boon of weak, nervous and suffering women. It is purely vegetable, and harmless, and will bring back strength to your nerves, freshness to your complexion, brightness to your eyes, the bloom of health to your cheeks, elasticity and spring to your step.

"I have been a sufferer from painful menstruation, nervousness and weakness for eight years. I used Dr. Greene's Nervura. It acted like magic. Why do women suffer when Dr. Greene's Nervura will surely cure them? I think it is splendid."

Miss PAULINE KAYSER.  
 248 West 24th St., New York City.

Dr. Greene, the successful specialist, in curing all forms of nervous and chronic diseases, 34 Temple pl., Boston, Mass., can be consulted free, personally or by letter. Call or write to him about your case, or send for pamphlet blank to fill out, and a letter fully explaining your disease, giving advice, &c., will be returned free.

ON APRIL 21ST, 323, B. C. died DIOGENES, the Cynic, who despised mankind, lived in a tub and asked ALEXANDER the Great to stand out of his sunlight.

He was born at Sinope, Asia Minor, and pirates sold him as slave to a wealthy Corinthian who treated him generously. He carried a lantern in daylight, looking as he said, for an honest man.

Evidently the ancient Cynic did not have an opportunity to read the Clothing advertisement of the present day, else he could have located his man without a lantern. Honest Clothing is easy enough to get when you find the right store.

Our Hat Department is receiving deserved attention. Our \$1.50 and \$2.00 hats save you 50 cents from the ordinary price.

# THREE THINGS Must Be Considered When You Purchase CLOTHING.

Price, Quality, Appearance.

THE FIRST must be considered, but our prices are so low and our terms are so liberal, that you can obtain the articles you have wanted so long and scarcely notice the expense.

THE SECOND is quality, and on it depends the amount of wear which you will obtain from your purchase. You are making an investment, and you want the article that will pay the best interest in wear. Anything you find in our store needs no further guarantee of its excellence.

THE THIRD is appearance, and this is important; no matter of what good material your clothes are made, or how cheap it may be, if you are not wholly satisfied with their appearance your money is thrown away, for you will never take comfort in them. The only difficulty that we shall have will be to decide which of the bargains you are hesitating between is the most desirable.

### Eating for Pleasure

is by no means so general as one might expect. Many folks eat from habit, others as a matter of duty, while the poor dyspeptic sustains himself mostly on the contemplation of what he cannot eat at all.

The healthfulness of food is almost altogether a matter of preparation. The difference between food cooked with the new health food

### ICE! ICE!

A Card to the People

These warm days remind us of the fact that the hot summer weather is coming, and with it comes the demand for ice, and the demand is for the very best ice to be had.

Now, we have cut our ice from one of the best ice ponds in the State, the Pine Pond at Long Beach. This pond is fed by mineral springs and makes the best ice on the market today. We shall supply all of our retail trade with this ice at a reasonable price. Our cards will be circulated around town this week and if you wish to have the best ice at a reasonable figure save our card and when in want of your ice, place it in your street window.

### AN EGYPTIAN BANQUET.

BY THOMAS WENTWORTH HIGGINSON.

A crowded life, where joy perennial starts; The boy's pulse beating mid experience sage; Wild thirst for action, time could ne'er assuage; Countless sad secrets, learned from weary hearts; New thresholds gained, as each full hour departs; Long years passed slowly, each an opened page; Love's blissful dreams and friendship's price—less gage; A name grown famous through the streets and courts; Knowledge advancing; thoughts that climb and climb; Aim that expands; new pinions that unfurl; Age that outstrips all promise of its prime; Hopes which their prayers at utmost heaven fill—Till in an instant, in a point of time, Death, the Egyptian, melts and drinks the pearl.

—Scribner.

### Distinguished Book Canvassers.

[Publishers' Weekly.]

Napoleon Bonaparte, when a poor lieutenant, took the agency for a work entitled "L'Histoire de la Revolution." In the foyer of the great Palace of the Louvre can be seen today the great Emperor's canvassing outfit, with the long list of subscribers he secured.

George Washington, when young, canvassed around Alexandria, Va., and sold over two hundred copies of a work entitled "Bodley's American Savage."

Mark Twain was a book agent. Longtong sold books by subscription.

Jay Gould, when starting in life, was a canvasser.

Daniel Webster paid his second term's tuition at Dartmouth by handling "De Tocqueville's America" in Merrimack county, N. H.

Gen. U. S. Grant canvassed for "Irving's Columbus."

Rutherford B. Hayes canvassed for "Baxter's Saints' Rest."

James O. Blaine began life as a canvasser for a "Life of Henry Clay."

Bismarck, when at Heidelberg, spent a vacation in canvassing for one of Blumebach's handbooks.

Politics and Ballet Dancers.

Boston, April 14.—Maurice Low, the Boston correspondent, told how he had interviewed Attorney General Garland on the election of Sadi-Carnot to the presidency of the French republic.

"Good morning, Mr. Garland," said Low; "what do you think of Sadi-Carnot?"

"I haven't seen her for several years," replied the attorney general, "but the last time I saw her, out in St. Louis, I thought her the finest dancer that ever balanced herself on one toe."

### WIT AND WISDOM.

**A Poor Combination.**

Achille Newman, who married Arabella Sophia Smith last week, was presented by his bachelor friends with a wreath in honor of the occasion, but somehow or other the combination of initials didn't seem to strike him favorably.—Brooklyn Life.

**DO NOT BE DECEIVED.**

Persons with weak lungs—those who are constantly catching cold—should wear an ALL-COCK'S PECTORAL PLASTER over the chest and another between the shoulder blades during cold weather. Remember they always strengthen and never weaken the part to which they are applied. Do not be deceived by imagining any other plaster like them—they are not—may look like it, but looks deceiving. Insist always on having ALL-COCK'S, the only reliable plaster ever produced.

**Practical Father—**So you want to marry my daughter, eh?

**Poetical Lover—**Yes, sir. I would lie down and die for her.

**Practical Father—**Hum! Would you get up and work for her?—Harper's Bazar.

**Rather Difficult.**

Miss D.—Angella, why don't you marry Lieutenant X—?

Miss A.—First, because he has no brains—and he can't ride, dance, or play tennis. What could we do with him?

Miss D.—But he swims beautifully.

Miss A.—You don't see just asked for some company, and I want to find whether it's a bird, beast, or just a nippy.—Woman's Journal.

**Physicians endorse and use Hall's Hair Renewer to cure gray and faded hair.**

"Let's go off on the water on our picnic," cried Charlie.

"No, let's go in the field," said Willie. "You can't get any berries or fruit or anything on the water."

"O yes, you can get watermelons on the water," said his baby sister.

Physicians consider Ayer's Sarsaparilla the most reliable blood medicine ever discovered.

Old Hadley Landford—Jimmy, run upstairs quick and ask your mother for the "Home Book on Etiquette."

Jimmy—Whatever want to find?

Landford—That gentle just asked for some company, and I want to find whether it's a bird, beast, or just a nippy.—Woman's Journal.

Ayer's Hair Vigor restores gray hair to its original color, makes it vigorous and abundant.

Solomon Life.

Mr. Sabur—Good morning. I wish to ask a favor of you.

Mr. De Vill—Why, certainly. What is it?

"I have called to ask you to send your carriage and coachman to meet me at the 6 o'clock train this afternoon, and I would like the coachman to be in his finest livery, and I hope he'll use the silver-plated harness."

Yes, I will arrive on that with a new servant girl, and I would like to make a good impression.—New York Weekly.

### "IN THE LAND OF THE MIKADO"

A curious method of advertising prevails. There every workman wears on his cap or back an inscription giving his business and the name of his employer. That might be called a personal method of advertising.

### THE ATKINSON CO.

might almost be accused of using like means, for every customer who has dealings with us immediately becomes a lasting advertisement. But we do not depend on friends alone for trade.

### WE DESIRE

to reach strangers and add them to our list of friends. SPRING CLEANING has begun and many pieces of Furniture must be discarded. Many young couples leave the furnishing of their parlor until the last. This spring would be a good time to furnish it. We have Parlor Suites to suit everyone's taste and purse.

### PARLOR SUITES. THE LIBRARY. THE RENT OR FOR SALE.

Our Parlor Sets range from \$15 to \$450. \$45 will buy a set of ten pieces; sofa, divan, two small chairs, a rocker and arm chair. They are upholstered in crushed plush and are good value for the money.

\$70 buys a beauty of a set, in either oak or mahogany, and the prices range all the way up.

A fine set of furniture for the library will cost \$80. It is of oak, upholstered in leather, and consists of five pieces.

We have cheaper sets, however, that are excellent value.

### DESKS.

A fine roll top desk finishes off a library. We have them from \$20 to \$90, and they are beautiful. The latest thing in style and finish.

### A New Rocking Chair

would add to the appearance of your parlor, even if you did not want a full suite.

\$15 will buy a handsome cherry patent rocker. You can get a mahogany rocker upholstered in plush for \$13, and a cheap one in antique oak for \$5.

\$20 will get you a handsome article of furniture, and you can go as high as \$70.

### An Easy Chair

upholstered in leather costs \$5, and one in silk tapestry is only \$7.50.

A couch always is useful and comfortable. There should be at least one in every house.

Ours are from \$15 upwards, and they are handsome pieces of furniture.

### Also Look At

our easels, secretaries, whatnots and other little oddities in furnishings.

### IN CONCLUSION.

If you need Dining Room Furniture, we have just what you need. Our stock of Carpets will surely please you. Our Kitchen Department interests every housekeeper, and our Crockery and China Department will occupy all your spare time. In the latter department we have thousands of handy little articles of Japanese manufacture. We have not time to mention them all but invite you to

COME IN AND SEE THEM.

## FARMERS ON THE SCHOOLS.

## Interesting Discussion at the County Grange Meeting.

## PRINCIPAL CORTELL ON THE STUDY OF AGRICULTURE.

## He Would Have Elementary Science Taught by Object Sessions—Hon. Warren H. Vinton Thinks the School of Forty Years Ago Better Than Those of the Present—Memorial Adopted in Memory of the Late Isaiah Elder.

An interesting meeting of the Cumberland County Pomona Grange was held yesterday with Presumptuous Grange in their grange hall on the Windham road in Deering. The beautiful weather and the interesting nature of the topics which were programmed for discussion by able speakers operated together to bring out a large attendance.

There were about two hundred members, including ladies, present, and the meeting was a most satisfactory one in every respect. The following granges were represented: New Gloucester, Raymond, Gray, Gorham, Westbrook, Westcott of North Yarmouth, Oak Hill of Scarborough, Cape Elizabeth, Presumptuous and Windham.

The meeting was opened for a short session in the forenoon, F. D. Scammon, master, presiding. Reports were received from the various subordinate granges in the county. An address of greeting was made by Warren H. Vinton of Gray and brief remarks of response and fellowship were made by Samuel Bell and L. B. Dennett, Esq.

At 12 o'clock, a picnic dinner was served in the grange hall, after which came the ladies' hour; following which the afternoon session was held as an open meeting. This was held in the Friends' meeting house across the road from the grange hall, and was called to order about 2 o'clock.

The first topic for discussion, "The Study of Agriculture,"

in the public schools was opened by Professor Cortell, principal of the State Normal School at Gorham. He said that the schools of Maine are far behind those of Massachusetts in method of teaching, and the schools in the rural districts of Maine are far behind those of the Maine cities. The approved Massachusetts method is what they call there "teaching nature," but a better name for it the speaker thought would be to call it teaching the elements of natural science. They are teaching this in the city schools not with the object of making farmers, but because they regard it as essential to a real education that the pupils should be trained to know and appreciate the facts of life.

Agriculture as an art must be learned by practice. There is a knowledge of the nature of things the farmer deals with, soils, plants, fertilizers, animals, insects, feed and cold and drainage. Elementary science is taught successfully by people who teach experimentally. In the kindergarten, children learn facts about plants, life through planting seeds and watching the daily growth. Chemistry, zoology and mineralogy are taught experimentally today, where in former years it was attempted to teach them from the text books only. It

was the next speaker and continued the discussion. He said it was melancholy to look over the schools and compare them with the schools of 40 years ago. Where the schools used to be overflowing, now the scholars have disappeared. Though we have ten times as much money to put into them as we had then, the schools do not begin to compare with those of 40 years ago. Then the teachers were for the most part young men ambitious to succeed; now the selection of a teacher is a squabble of election in the school district, and fitness is hardly considered. We are taxed to death for schools, and we are willing to be. We want all the children to be educated and will cheerfully expend any sum for that object, but under the present inefficient system a large part of the school money which we give in taxes might just as well be thrown into the stove.

In answer to a question, Mr. Vinton said there was a disposition shown in certain quarters to do away with the district system altogether and substitute in place of it a school board. The danger of this is the usual one of consolidation. As between the town system and the district system, Mr. Vinton thought the town system the best for towns where the population was closely settled, and other towns would do better with the district system.

Mr. Cortell replied to Mr. Vinton, and

Opposed the District System.

He would like to see a bill framed in the legislature creating a state board of examiners and that no person should be eligible to teach without a certificate from this board.

Mr. L. B. Dennett, recognized in Mr. Cortell the greatest teacher in Maine, and that he had argued with distinction ability the points most thoroughly believed in by the speaker himself.

But on one point, he took issue with Mr. Cortell. In regard to use of text books the speaker said that one of the great needs of teachers is the knowledge of facts. Is it any harm to teach that fact from a book. Have the book of facts and teachers competent to teach objectively. Have them both, said the speaker, I contend for the book. Mr. Dennett favored the abolition of the district system.

Mr. Vinton spoke of the book lately published by Mr. Winslow, member of the State Grange, and inquired if it was of any value in the schools. For his part he considered it simply a definer of terms.

Mr. Dennett said the book is the merest primer.

Mr. Cortell said of the book that he had tried it in his classes and could do nothing with it. Said he: I have a dozen in that department of elementary science that are better than that one.

The school discussion was closed and as the hour was late, on motion of Mr. Dennett, the papers upon roads and road building, which were to have been discussed were postponed to the next meeting. The following memorial of the late Isaiah Elder was presented and was entered upon the records of the grange, and the meeting was closed in due form. The next meeting will be held with Cape Elizabeth Grange, May 18th; open meeting in the afternoon.

**Memorial of Isaiah Elder.**

Isaiah Elder was born in Gray, September 29th, A. D., 1825, and died in Deering, April 3d, A. D., 1892. Early in life he lived in Windham, but moved in Deering in December, A. D., 1889. He left a widow and nine children, six daughters and three sons.

He was engaged for many years in selecting from the forests of Cumberland county and vicinity, oak timber for vessels and piles. Probably no man in this state was a better judge of the use which an oak tree could be put to, and of its value than Isaiah Elder. He could be depended on to find and send into a shipyard every stick of timber needed for a vessel. Much of his life was passed in the wood, a life which has fascinated some of the noblest minds in America. It pleased him. In stature, Isaiah Elder was of the largest and noblest type. Symmetrical as an artist's statue, he commanded the admiration of every man or woman who ever stood before him. His countenance was in perfect symmetry with his figure. No man who ever looked upon his living countenance, tempted to put him in a panic of fear. Yet he was the gentlest of men, without self-assertion; a companionable man (a kind far too rare), whose friends delighted to be with him, because they were sure of his sympathy and sincerity. He was considerate of the rights of others, and unselfish in the exercise of his own. If his friend were in trouble, he reversed the common rule, he rendered him assistance instead of advice.

In his boyhood he was deprived, in a great degree, of even the most advantages of his time for obtaining an education. Yet so great was his natural understanding that he comprehended the progress of his day, and was desirous of keeping in rapport with it. His principal object in moving to Deering was to secure for his large family of children good educational opportunities. This seemed to be the chief aim of his life. His intense interest in the schools of Deering was manifested by his frequent visits to them, of every grade, from primary to high school. Both teachers and scholars seemed pleased with his great sympathetic and interested presence. He never decried the modern school, as those who never visit from frequently do. A large circle of business men were acquainted with his intimate and practical abilities. A few intimate friends, only take ten drops of Sarsaparilla at first. In two weeks I was able to sit up a few minutes every day. In a month I could walk across the room. One day I asked what they were to have for dinner, and said I wanted something hearty. My mother was so happy she cried. It was the

and I should soon die. I could not be moved from my bed. Under my face were napkins continually reddened with blood from my mouth. I could eat nothing and had no action of the bowels for a week. The doctors said the cause was in the stomach. At this time my mother said she wanted to make one more trial, and asked if I would take Hood's Sarsaparilla. I told her it would be

but finding it would comfort her, I began taking it. In a few days the bloating began to subside. I seemed to feel a little stronger, but thought it only temporary. I was so weak I could only take ten drops of Sarsaparilla at first. In two weeks I was able to sit up a few minutes every day. In a month I could walk across the room. I kept on with Hood's Sarsaparilla and in six months was as well as ever in my life. It is now four years since I recovered, and I have not had a day's sickness since, nor any hemorrhage. If ever a human being thanked the good Lord for his goodness, it was I. I know that Hood's Sarsaparilla, and that alone, unquestionably saved my life.

Witness, Sawyer & Jennings, the well known druggists of Portland, say that Mrs. Huntley "is a highly respected lady; her statement of what

Has done for her is worthy the highest confidence."

The showing we are making in both departments for men and women and boys and girls includes all the best sorts made in Underwear for everybody, with the emphasis just now on the medium weights,—the kind you can substitute for winter ones without risking pneumonia.
